Set on the edge of the historic Pontefract Castle grounds, this truly distinctive home presents a rare opportunity to own a property with a remarkable connection to the area's past. Once forming part of the Castle itself, the property is surrounded by mature woodland and original stone boundary walls, with the garden nestled beneath the Castle grounds to create an exceptionally private and characterful setting.

Offering generous and versatile accommodation arranged over two floors, the property features two bedrooms on the ground floor and a further two bedrooms on the first floor. This flexible layout is ideally suited to families, multi-generational living or buyers looking for the convenience of ground-floor bedroom accommodation. Three spacious reception rooms provide plenty of room for entertaining, relaxing and everyday family life.

Outside, the property is equally impressive. Double entrance gates open onto a private driveway, enhancing the sense of seclusion. There are also useful outbuildings, a garage with a roller door currently utilised as a gym, together with an additional separate garage, providing excellent storage, parking and flexible-use space.

Despite its wonderfully tucked-away position, the property remains conveniently located for Pontefract town centre, the Castle grounds and a wide range of local amenities. Shops, schools, bus routes and rail connections are all within easy reach, while excellent access to the motorway network makes the location particularly convenient for commuters.

Beautifully presented throughout, this exceptional home combines history, character, space and practicality in a setting unlike almost anything else in the area. Properties offering this level of individuality and such a fascinating historical connection rarely come to the market, making this a genuinely unique opportunity.
