

6 Jutland Street  
Manchester  
M1 2BE

# 6 Jutland Street

£230,000

## Full Description

Elite Realty Invest is pleased to present a newly launched off plan residential development located within one of Manchester's most significant regeneration areas. Positioned close to the city's key transport and commercial hubs, this landmark scheme offers investors the opportunity to secure property in a high demand location with strong long term growth prospects.

The development will comprise 177 one, two, and three bedroom apartments arranged across 25 floors, each designed with modern city living in mind. The residences will be finished to a high specification, featuring large windows and contemporary interiors that maximise natural light and create a welcoming living environment for residents.

A range of resident focused amenities will enhance the appeal of the development, including dedicated work from home spaces, a fully equipped gymnasium, and landscaped communal gardens. These features are designed to meet the evolving lifestyle needs of modern tenants and support strong rental demand.

Situated within the rapidly transforming Piccadilly and Ancoats area, the development benefits from significant surrounding investment, including the wider regeneration initiatives that continue to reshape this part of the city. With excellent connectivity, strong tenant demand and a thriving local economy, the location remains one of Manchester's most sought after residential areas.

This off plan opportunity is available strictly for investment purposes and requires a 25% deposit, presenting an attractive entry point for investors seeking exposure to one of the UK's strongest performing regional property markets.
