RASH & RASH

4 Bedroom House - Detached located in London

**** Chain Free **** A four bedroom detached 1930s home set on a substantial plot, offering 1,815 square feet of versatile living space with further scope to extend (subject to the usual planning consents). This is a rare opportunity to acquire a characterful family home surrounded by beautifully mature 360 degree gardens, creating a wonderful sense of privacy and seamlessly bringing the outside in, while also enjoying an enviable position opposite a charming green space/mini park.

Upon entering, you are welcomed by three generous reception rooms and a kitchen, providing excellent space for both family living and entertaining. The thoughtfully designed layout allows for an effortless flow throughout the ground floor, complemented by a convenient guest cloakroom.

The lower ground floor offers exceptional additional living potential, featuring a large reception/playroom, laundry room, existing plumbing, direct access to the garden, and side access to the house. With the infrastructure already in place for a kitchen and bathroom, this space could easily be transformed into a fully self-contained separate dwelling, ideal for extended family, guests, or additional income potential.
