## LOCATION

Moorby is a rural hamlet, comprising a scattering of dwellings and farms, situated on the B1183 approx. 5 miles south of the market town of Horncastle and approx. 14 miles north of Boston.

The land fronts the main B1183 as you pass through the village and is shown for identification purposes on the attached plans.

## GENERAL DESCRIPTION

The land comprises a grass paddock, situated on the south side of the B1183, within established boundaries of mature trees and hedgerow, extending to approx. 1.68 acres (0.68 ha).

To the northern end of the paddock is a detached timber-built barn, which forms the basis of the granting of planning consent for a dwelling.

The approved plans provide for the conversion and extension of the barn to create a substantial L-shaped family home, taking full advantage of the setting. Including family living area, with full height glazed elevation, enjoying the westerly open rear aspect, over the rear paddock and beyond. In all, the plans create a contemporary living space.

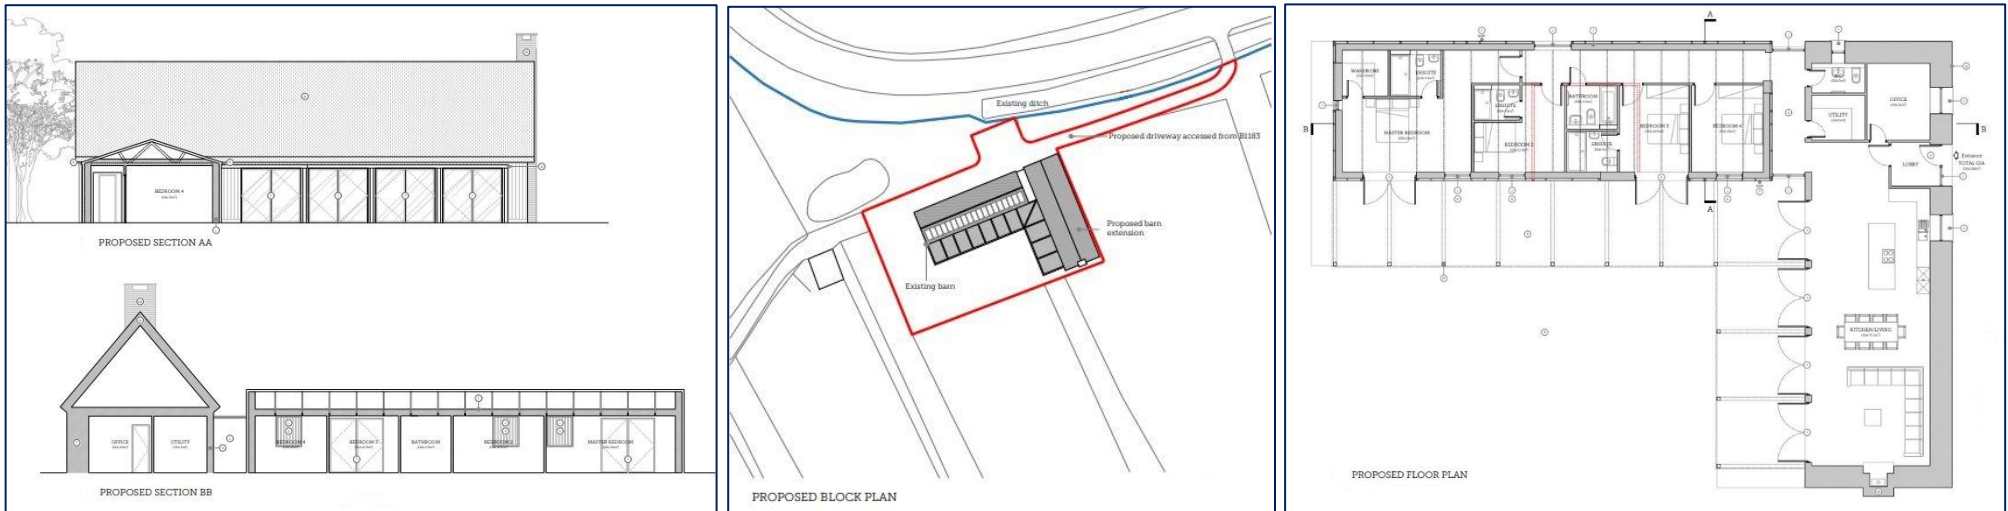

The dwelling has green credentials, with the proposed extensions, specified with bale walls under a thatched roof, the latter in recognition of the nearby historic Thatched Cottage at White House Farm.

Other green credentials include ground source heat pump, solar panels and EV charging.

This is an opportunity to create a unique energy efficient contemporary family home, of considerable character, within an established rural setting.
